

Elements

The element symbol for hydrogen is

H

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The second most abundant element in the Universe is

He

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The element symbol for lithium is

Li

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The element symbol for carbon is

C

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The element symbol for nitrogen is

N

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The element symbol for oxygen is

O

Correct: move ahead 1 space
Wrong: Go back 1 space

Elements

The element symbol for lead is

Pb

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

The element symbol for uranium is

U

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

Ca is the element symbol for

calcium

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

Ne is the element symbol for

Neon

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

Mg is the element symbol for

Magnesium

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

Na is the element symbol for

Sodium

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

In C_{12} , the 12 refers to what --

Mass number

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

The periodic table of elements is arranged how.

By increasing atomic number

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

The second most abundant element in the universe is

Li

Correct: move ahead 2 space

Wrong: stay where you are

Elements

An isotope of an element is determined by its number of

neutrons

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

The most stable of all heavy elements is

Lead

Correct: move ahead 1 space

Wrong: Go back 1 space

Elements

One of the heavy elements that has no stable isotopes

uranium

Correct: move ahead 1 space

Wrong: Go back 1 space
