

Afterschool Universe Session 11 – Examples of Cosmic Quilts

Galaxies

You Took The Gas out my hand
Galaxies Galaxies
Galaxies and Trees
You Associate with
Your Brain - Stars
Lightning Storms.

Galaxies Galaxies
Galaxies and Trees
Full of Super Novas
White Dwarfs
Black Holes
Yanks - Wander's Ultra
Speed, Full Size of our World

Giant
And
Lots of variety
All stars, planets and everything
X-tremely old
Yours and My home

Fu-Fu-Fu-Fusion
Ga-Ga-Ga-Gravity
IS Balanced...
In-Burns-Burns-BURN
To a Big Red Giant
And no Ends-Ends-Ends
As a white Dwarf...
Dwarf...

Rob's Fears

Galaxies they aren't
leave the Milky Way
alone!! No bumper
galaxies please!!

More X-rays
please!! It's hot
black hole gonna
be get to close
to us!!

The helium
might run out!
Please Fusion,
Don't Stop!

I'm so afraid

I'm so afraid
That in billions years to be made
the universe is vast
Even 27 years old
I just want the planet to last
Our sun is billions years old
But other stars will soon die
I just want to know what the stars will
black holes will be formed
Stars will explode
I'm not afraid really in trouble?
I'm not afraid really in trouble?
maybe I should build me a bubble!!

Thoughts with the bubble
The galaxy was formed over
Time from gravity
Please don't go too fast
They'll separate your thoughts

Galaxy

- 5 types of galaxies
- Earth in Milky Way galaxy
- Milky Way = spiral galaxy
- Galaxy made of stars, gas, dust & gravity
- Billions of galaxies in universe

SPIRAL GALAXY VIEWS

IT ALL SORTED WITH A BANG!

* Big Bang made a bubble
The bubble is our bodies.
Like carbon, hydrogen, helium
oxygen - everything the
beginning of our life about
2-4 billion
